Re: *Steele-Warrick v. Microgenics Corporation and Thermo Fisher Scientific Inc.*
Civil Action No. 1:19-cv-06558

Ruben Wills v. Microgenics Corporation and Thermo Fisher Scientific Inc., et als.
Civil Action No. 1:20-cv-04432-BMC

Dear Judge Scanlon:

We represent Defendants Microgenics Corporation and Thermo Fisher Scientific Inc. in the captioned cases. Per the Court's March 23, 2021 Order, counsel submits this joint letter to advise that, while Plaintiff Steele-Warrick would be interested in referral to the Court's ADR program if the defendants in *Steele-Warrick* were willing to discuss class-wide settlement, Defendants are not interested in discussing class-wide settlement at this time and thus ADR referral in *Steele-Warrick* is not possible. Plaintiff Ruben Wills is interested in pursuing ADR; however, Defendants are not interested at this time. Thus, the parties in both captioned matters do not seek referral to the Court's ADR program at this time.

Respectfully submitted,

BOWMAN AND BROOKE LLP

/s/ Erica S. Mekles
